# Ukraine Crisis Response Neighbouring Countries

## DRC Response

DRC works to ensure that people seeking protection in neighbouring countries receive protection and humanitarian assistance through:

- Supporting and expanding the response carried out by NGOs and other civil society actors by providing flexible funding and establishing formalised partnership agreements
- Supporting national authorities, civil society, and NGOs by providing technical know-how support through technical assistance and capacity exchange
- Directly complementing support from local actors to provide protection and humanitarian assistance to displaced people from Ukraine and host communities ... [Read more](#) ▶

## DRC Response in Neighbouring Countries

In recognition of the substantial humanitarian consequences and needs, DRC has established a partnership-based response with support to activities through a network of local actors in Poland, Moldova, and Romania, primarily in the border areas.

DRC is also providing technical support and training to both state and local authorities, as well as a wide range of civil society actors.

The humanitarian response in Neighbouring Countries is centered around DRC Core Sectors and areas of expertise via **Protection** including legal aid; **Economic Recovery** and multi-purpose emergency cash assistance, **Camp Coordination & Camp Management** with accommodation center support; and support related to **Water, Sanitation & Hygiene** needs.

The response activities and modalities will continuously be aligned through overall coordination mechanisms and dependent on needs and gaps identified, and carried out through a combination of local partners and DRC direct implementation.
