

**The Danish Refugee Council (DRC) hereby offers guidance on the rules for crossing the Ukrainian state border for persons who search for safety and who are leaving or plan to leave the territory of Ukraine.**

### **POLAND**

- Entry is possible without any documents on COVID vaccination, PCR test, etc.;
- Departure from Ukraine is allowed for women, as well as for men under 18 or over 60 years of age;
- Entry is possible without a biometric passport. It is recommended to have identification documents with you (national or international passport, driver's license, children's birth certificate). The admission of persons without documents is decided on an individual basis. According to the information DRC has, the crossing of persons without documents does indeed occur in a number of cases at the discretion of the border guard;
- Persons with a biometric passport will be able to enter and move throughout the European Union within 90 days;
- Crossing the border by car is allowed without an insurance policy – a 'green card'.
- Upon arrival in Poland, contact the nearest Reception Centre to receive temporary accommodation, hot meals, drinks, basic medical care and a place to rest.

### **SLOVAKIA**

- Entry is possible without any documents about COVID vaccination, PCR test, etc.;
- Departure from Ukraine is allowed for women, as well as for men under 18 or over 60 years of age;
- Entry is possible without a biometric passport. It is recommended to carry identification documents with you (national or international passport, driver's license, children's birth certificate). The admission of persons without documents is decided on an individual basis. According to the information DRC has, the passage of persons without documents does indeed occur in a number of cases at the discretion of the border guard;
- Persons with an existing biometric passport will be able to enter and move throughout the European Union within 90 days;
- Residents and third-country nationals will be granted transit through Slovakia if they have a valid international travel document (biometric passport). Such persons must leave Slovakia within 72 hours of entry;
- There are three border checkpoints: **Vyšné Nemecké, Ubl'a** and **Veľké Slemence**;

- A **temporary camp was built in Humenne** and equipped with about 30 tents with camp beds, rugs and sleeping bags, heating, lighting, canteen and hygienic facilities. The camp's current capacity is for 500 people;
- The Slovak railway company (Železničná spoločnosť Slovensko) has introduced free travel on InterCity trains for Ukrainian citizens with a valid passport; also in some areas, in particular, Bratislava and Trnava, free travel by suburban buses has been introduced for citizens of Ukraine.

### MOLDOVA

- Entry is possible without any documents about COVID vaccination, PCR test, etc.;
- Departure from Ukraine is allowed for women, as well as for men under 18 or over 60 years of age;
- You need to have identification documents with you (national/international passport, driver's license, birth certificates of children);
- Border crossing is allowed without an insurance policy – a 'green card';
- main checkpoints: **Palanka-Maiaky-Udobne, Tudora-Starokozache, Otach-Mohyliv-Podilskiy, Kriva-Mamalyha**;
- Temporary accommodation centres for refugees have been set up in **Palanca** and **Calarasauca**, bordering Ukraine.

### ROMANIA

- Entry is possible without any documents about COVID vaccination, PCR test, etc.;
- A biometric or national passport is required for entry (visa not required);
- Persons wishing to enter Romania by car should have a European car insurance policy - a 'green card';
- Romania has not yet opened any official refugee camps, however, activists provide food and other assistance in the following camp sites:
  - 30 tents are located in the city of **Siret**, in the Suceava district of Romania;
  - 2 tents are located at the checkpoints near the Prut River in **Stancu**;
  - A mobile camp is deployed at the **Marmaros-Sziget** checkpoint in the Maramureş region.

### HUNGARY

- Entry is possible without any documents about COVID vaccination, PCR test, etc.;
- Departure from Ukraine is allowed for women, as well as for men under 18 or over 60 years of age;
- Entry is possible without a biometric passport. It is recommended to have identification documents (national or international passport, driver's license, children's birth certificate). The admission of persons without documents is decided on an individual basis. According to the information DRC has, the passage of persons without documents does indeed occur in a number of cases at the discretion of the border guard;
- Persons with a biometric passport will be able to enter and move throughout the European Union within 90 days;
- Border crossing is allowed without an insurance policy – a 'green card';
- Hungary opened a humanitarian corridor for citizens from other countries, such as Iran or India, who flee from Ukraine, letting them through without a visa and taking them to the nearby Debrecen airport;
- Refugee reception points are located near the border with Slovakia in **Balassagyarmat** and **Vámosszabadi**
