III. SELECTION AND AWARD CRITERIA

The criteria for awarding contracts resulting from this Tender is based on 'best value for money'. For the purpose of all tenders, DRC defines best value for money as:

Best value for money should not be equated with the lowest initial bid option. It requires an integrated assessment of technical, organizational and pricing factors in light of their relative importance (i.e., reliability, quality, experiences, and reputation, past performance, cost/fee realism, delivery time, reasonableness, need for standardization, and other criteria depending on the item to be procured).

For all bids deemed technically compliant as per the specification stipulated in Annex F – Terms of Reference (ToR), DRC will give a weighted combined technical and financial score. The weighted score will determine the contract award.

A. Administrative Evaluation

A bid shall pass the administrative evaluation stage before being considered for technical and financial evaluation. Bids that are deemed administratively non-compliant may be rejected.

DRC exclusively enters into contracts with formally registered legal entities that provide a valid, verifiable unique business identifier issued by a competent national authority. This unique business identifier must be separate from any personal identification or personal tax number assigned to a private individual. As of March 2025, this requirement applies to all newly contracted DRC suppliers, regardless of what may be accepted elsewhere, local legislation, exemptions, or past practices.

DRC therefore does not contract with private individuals operating without formal company registration. This includes sole proprietors whose business activity is linked only to a personal tax number or personal identification number.

At the time of the contract signing, the DRC will require the winning bidder to submit a copy of the majority owner's ID, such as a passport or any other official identification document, for supplier registration purposes.

If any information required during the administrative evaluation is not provided by the bidders, DRC may choose to request bidders to supply this information within 48 hours of the tender opening. Please note that this is only applicable for documentation that does not alter the details in the bid, such as price information.

B. Technical Evaluation

To be technically acceptable, the bid shall meet or exceed the stipulated requirements and specifications in the RFP. A bid is deemed to meet the criteria if it confirms that it meets the conditions, procedures and specifications in the RFP without substantially departing from or attaching restrictions with them. If a bid does not technically comply with the RFP, it will be rejected.

The technical criteria for this RFP and their weighting in the technical evaluation are:

A bidder will be considered technically compliant if they achieve a minimum score of 5 in each sub-criterion. DRC reserves the right to disqualify the selected bidder if it determines that the consultant does not fully understand the requirements.

C. Financial Evaluation

All bids that pass the Technical Evaluation will proceed to the Financial Evaluation. Bids that are deemed technically non-compliant will not be financially evaluated.

Any discrepancy between the unit price and the total price shall be re-computed by DRC, and the unit price shall prevail, and the total price shall be corrected. If the bidder does not accept the final price based on DRC's re-computation and correction of errors, its bid will be rejected.
