III. SELECTION AND AWARD CRITERIA

The criteria for awarding contracts resulting from this Tender is based on ‘best value for money’. For the purpose of all tenders DRC defines best value for money as:

Best value for money should not be equated with the lowest initial bid option. It requires an integrated assessment of technical, organizational and pricing factors in light of their relative importance (i.e. reliability, quality, experiences, and reputation, past performance, cost/fee realism, delivery time, reasonableness, need for standardization, and other criteria depending on the item to be procured).

For all bids deemed technically compliant as per the terms of reference stipulated in Annex A – Terms of Reference, DRC will give a weighted combined technical and financial score. The weighted score will determine the contract award.

The technical criteria for this RFP and their weighting in the technical evaluation are:

1. Profile, qualifications, and similar experience (Weighted percentage – 50%)

- a. The candidate meets the profile and qualifications for the TOR. This is evaluated based on:
 - i. Document 1: Company profile outlining the technical background and experience of the evaluator (1-3 paragraphs)
 - ii. Document 4: CVs of all members of the evaluation team (not more than 3 pages each)
- b. The candidate demonstrated the experience required by the TOR. This is evaluated based on:
 - i. Document 1: Company profile outlining the technical background and experience of the evaluator (1-3 paragraphs) [The consultant(s) have similar or other relevant experience in conducting impact evaluations within the INGO/humanitarian sector. The consultant(s) have relevant experience in sectors similar to those of the focus of the TOR (economic empowerment, social empowerment, civic engagement, advocacy). The consultant(s) demonstrated relevant experience in Jordan or in contexts comparable to Jordan.]
 - ii. Document 5: Two-three reference letters (full letters, not just list of references) from previous clients, including their contact information (full name, email address, phone number)

2. Technical approach (Weighted percentage – 50%)

- a. The technical approach addresses the key requirements and deliverables of the ToR and presents the required outputs, within the deadlines, demonstrated by a workplan. This is evaluated based on:
 - i. Document 3: Two-three work samples (program evaluation and/or impact research)
 - ii. Document 2: A basic strategy and technical approach to the TOR, team composition (if team), and timeline/workplan (2-5 pages)

Please note that bids shall respond to all criteria, or their bid may be disqualified.
